Update of the Investment Policy of the Underlying Fund of the Investment Choice

- *Schroder ISF – Hong Kong Equity “A1 Acc” (SCHEH)*

As advised by the board of directors of Schroder International Selection Fund, the investment policy of the underlying fund of the investment choice above has been updated to clarify that indirect exposure to China A-Shares may be via instruments such as participatory notes, rather than by the use of derivatives.

Rationale

The investment policy of the underlying fund provides that derivatives may only be used with the aim of reducing risk or managing the underlying fund more efficiently. To ensure consistency with the policy, the reference to China A exposure being available indirectly via derivatives has been removed.

All other key features of the underlying fund will remain the same.

The Hong Kong offering documents of the underlying fund will be revised to reflect the above change.

You should refer to the relevant offering documents and the notice to shareholders of the underlying fund(s) of the above investment choice(s), which are made available by YF Life Insurance International Ltd. upon request, or visit our website (www.yflife.com) to carefully read the details of the relevant documents in relation to the above change(s).

If you have selected the above investment choice(s) under your insurance policy and if for any reason you wish to change to other investment choice(s), you may switch your investment choice(s) to other available investment choice(s) provided by your policy.
